

Online Bidding is now available through COOLNet Alberta!

Projects receiving eBids will have a new **Bid to Owner** button in the menu

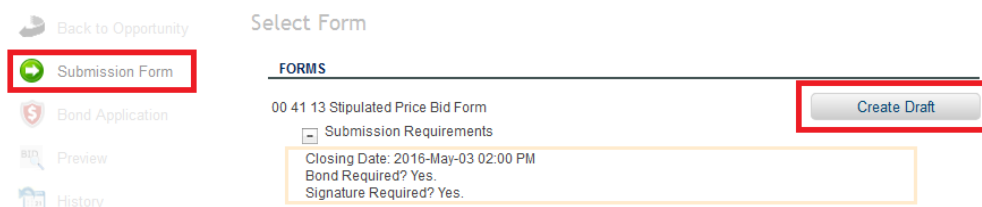

Clicking on the 'Bid to Owner' button will transfer you into **Eteгри**, the platform used for Online Bidding. Here you will find all of the bidding tools you will need. Start with the **Preview** to take a look at the submission form.

If a **bond** is required, you **MUST** submit an electronic bond obtained through the Online Bidding System. Use the **Bond Application** form to get started.

When you are ready to start working on your draft submission, click on Submission Form, then Create Draft and Open Form. You will then be prompted through the pages of the online form.

For more detailed instructions use the [Online Help Files](#) and watch for upcoming webinars!
